Group C
Name: Yinghao Qin   Student ID: 190189237

In this coding part of the project, Jingye and I were responsible for generating the level generator and testing in order to get the testing results. I mainly did the constructive part, and Jingye did the search-based part. In addition, Chunghao was responsible for generating the two evaluation methods. Finally, I combined all the parts into the whole thing.
In addition, Chunghao wrote the most part of the report.
